Authorized by:
President
Javier Sollozo

CERTIFICATE VALID FROM:

Jan 12, 2017 To Jan 11, 2018

AUDIT SCOPE:

To conduct a Primus GFS v2.1-2 GMP audit on the packing house that serves citrus: oranges. The packinghouse had approximately 65 employees that worked the packing facility. The commodities come in large plastic bins, is ran down the orange packing line. The lines have 3 recirculated wash tanks (using LA ChemChlor for an antimicrobial). The commodities are not treated with a fungicide, but are waxed. Next the commodities are placed into food grade boxes or bags. Then, the commodity is placed in cooler storage before shipment to the buyer. Both organic and inorganic oranges are handled at this facility, and no allergens were present at the facility. Before organic oranges are packed, the facility cleans and sanitizes all food contact surfaces with organic approved cleaners and sanitizers, and only uses approved organic chemicals while organic is being ran. The facility is in operation basically year round, or as needed as market permits.

PRODUCTS:

PRODUCT(S) OBSERVED DURING AUDIT

Oranges, Oranges, Organic
