AUDIT TYPE:

Announced Audit

AUDIT EXECUTIVE SUMMARY:

This facility is in operation year round with off season maintenance conducted in June. Conventional product was observed in the facility, however, the facility is certified organic should they need to store organic product. There are two lines at this facility, no allergens, and no CCPs. This operation receives citrus, de-greens it (during the early months of the season with ethylene), soaks the fruit in the flume (recirculated water sanitized at 20-200ppm free chlorine), then a recirculated wash with PAA @35-85ppm and sodium bicarbonate. The fruit is dried waxed, graded, packed, stored and shipped. Mandarins were observed being packed on the day of the audit.

Addendum(s)/Module(s) included in the audit:

Not Applicable

Product information for each product			
Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Grapefruit	Not observed but of a similar risk type to what was observed*	From: October To: June	United States
Lemons	Not observed but of a similar risk type to what was observed*	From: October To: June	United States
